

GOLAY

Mr. Martin Abert,
Director,
Skyline Technologies Limited.

Dear Mr. Abert,

Letter of Recommendation

We would like to provide this letter as a reference of works completed by Skyline Technologies Limited (Skyline) for Golay Buchel and Co. (HK) Ltd. and as a letter of recommendation for their continuing use.

Since 2003 Skyline have performed many services to Golay as described below:-

During our office renovation in 2004 they re-cabled the office for the IT systems and coordinated with our contractor to ensure completion of works on schedule. The works were very successful and the result in the server room is very clean and neat. There have been no issues with the network cabling since this job was completed.

Skyline have provided various online workflow solutions for Golay including an Intranet and Document Control System which are both extensively used in the office to great effect. They also developed for us our Customer Relationship Management solution which is integrated to the Intranet.

In 2004 they worked with our Asia Pacific IT Manager to develop an online Catalogue solution which is used by all of our branches. It was developed and launched on schedule and has been a big success with all parties using it. It is currently in Phase II of enhancement.

Since they started working with Golay, Skyline have provided an Emergency Outsourced IT Support role for instances where our IT Manager is on leave or away on a business trip.

During all our dealings with Skyline we have found their service to be good and their solutions have fully matched our requirements.

We would happily recommend Skyline to any other corporation interested in their services and would be available to provide more detailed information to their prospective clients should it be required.

Regards,

GOLAY

Golay Buchel & Co. (HK) Ltd.
