18 Shell Street,  
North Point,  
HKSAR.

Attention: Martin Abert

18 November 2008.

To Whom It May Concern:

MIKE HACKNER ARCHITECTS WEBSITE.

I've dubbed FunctionEight, FUNCTIONGREAT!!!

Thanks to Martin, Ken and the team, I'm delighted with my website and have only received good reports.

It was a pleasure to work with FunctionEight; the process was smooth from the initial briefing meeting, deriving the concept, through the construction process to the final product, the website on the net.

Being an architect, by nature there was always going to be importance given to design, as this being the shopfront window of my practice.

FunctionEight came up with a product that I'm more than happy with that reflects myself and my practice. Also it is important to mention that I gave Martin a date of the 16th November that had to be met, as on that date a project of mine was being made open to the public in Matakana. FunctionEight met the target date.

I can recommend FunctionEight to anyone with confidence who want to use their services... So again, many thanks to the TEAM, looking forward to an ongoing relationship.

Yours sincerely

MIKE HACKNER
